

# Practical: Create a Simple Navigation Bar (Navbar)

## What is a Navigation Bar?

A **Navigation Bar (Navbar)** is a menu that contains links to different pages or sections of a website. It helps users easily navigate through the website.

---

## Where Can We See a Navigation Bar?

Navigation bars are commonly found at the **top of a webpage**.

### Examples

- College Website
  - Amazon
  - Flipkart
  - YouTube
  - Facebook
  - Online Learning Websites
- 

## Purpose of a Navigation Bar

- Provides easy navigation between pages.
  - Improves user experience.
  - Organizes website content.
  - Gives quick access to important pages.
- 

## Diagram

```
+-----+
| Bird Academy      Home   Courses   Gallery   Contact   Login |
+-----+
```

Website Content Starts Here

---

## HTML Code (index.html)

```
<!DOCTYPE html>
<html>
```

```
<head>

<title>Simple Navbar</title>

<link rel="stylesheet" href="style.css">

</head>

<body>

<div class="navbar">

<b>Bird Academy</b>

<a href="#">Home</a>

<a href="#">Courses</a>

<a href="#">Gallery</a>

<a href="#">Contact</a>

<a href="#" class="btn">Login</a>

</div>

</body>

</html>
```

---

## CSS Code (style.css)

```
/* Navigation Bar */

.navbar{

background:lightgray;

padding:15px;

}

/* Navigation Links */

.navbar a{
```

```

text-decoration:none;

color:black;

margin-left:20px;

}

/* Login Button */

.btn{

background:red;

color:white;

padding:6px 12px;

}

```

## Output

-----

Bird Academy   Home   Courses   Gallery   Contact   [ Login ]

-----

Biogeography is the study of the distribution of species and ecosystems in geographic space and through (geological) time. Organisms and biological communities often vary in a regular fashion along geographic gradients of latitude, elevation, isolation and habitat area.

### About Us

Accurate information about wild birds from a professional ornithologist. He has published 30 research papers and eleven books, among them: *Amazing Birds*, *Birds of New England*, *Bird Finder*, *Pacific Coast Bird Finder*, *Latin*
